

The A-Maze-Ing Race Testimonials

1. A Bell Canada IT team recently participated in a customized 'Amazing Race' seminar facilitated by Dave Neely. Our goal was to have some fun as well as to learn how to work together more effectively as a team. Our group had a fantastic time and learned about themselves and about those who they work with on a daily basis. The event was so positive - Dave's enthusiasm & knowledge just added to this most enjoyable experience. We would highly recommend Dave to anyone who is looking for a most effective team building experience. Robin Macken, Associate Director - Systems Delivery 905-898-7502

2. Dave took the time to understand our organization and what our goals and objectives were, and then geared his workshop to our needs. The Amazing Race was a great team building exercise that was both fun and educational, and the DISC profile provided a personal overview of each of the participants that can be used to not only grow and develop our employees, but our customers too. I would highly recommend this program. Don Cox, B.A., CRM Assistant Vice President BI&I (905)320-3299

3 . "Dave Neely provided valuable insights and tools, and helped our organization to have a very successful planning retreat. Dave's sessions were upbeat, engaging and helped strengthen our team. We recommend him and the A-Maze-ing Race." - Stephen Hogan Sr. Evaluation Officer, Transport Canada hogans@tc.gc.ca (613) 990-2552

4. At Upper Canada we recognize the importance of "sharpening the saw" by investing in our employees. The A-Maze-ing Race was a great first step in strengthening our team, giving coworkers the opportunity to work and play together outside of their normal environment and routine. The DISC reports gave management and staff keen insights into our strengths, capabilities and areas for improvement and the team-building activities helped to teach us all how to work more effectively with each other.

The A-Maze-ing Race was a solid investment in our business. - Rob Campbell
